

# PREFACE...

Located at the heart of the millenium city – Gurgaon, the school is recognised across Delhi-NCR for providing Supreme-Quality Academics and inculcating strong values in the students.

Since past two decades, we are striving towards creating a tradition of sustained excellence which is built upon a foundation of continuous improvement and lifelong learning, setting new standards every day for others to emulate.

**Our vision** reflects what we hope to achieve as a school community and for our students, which is strictly to help students become moral, ethical, and successful human beings.

**Our Motto:** 'Light thy Soul' – Truly describes what we believe in:

Open the soul, O man, to the cosmic and let it flow in as one with thy soul. Light is eternal and darkness is fleeting.

Seek ye ever, O man, for the light know ye that ever as light fill thy being, darkness for thee shall soon disappear.

[Emerald Tablet VII :The Seven Lords]

Thoth

Our primary value system is of creating strong academic skills along with building our students' strong ethical values, i.e. integrity, respect, discipline, and secularism. Potent values with the clarity of thought, futuristic vision, decision-making ability, and morality is what makes our champions and best human-beings. Our students are champions in every sphere of life, be it arts, music, sports , Olympiads and quizzes.

## **FROM THE CHAIRPERSON'S DESK**

At Lady Florence Convent School, we hold that real education goes beyond lesson plans—it enters the heart, sparks the mind, and charts the course of a life. Beyond grades and ranks lives the heart of a person—bravery, kindness, humility, and understanding. These lasting values are the very core of LFCS, lighting the path for every child to shine with honesty, caring, and a strong sense of purpose.

Reflecting on the bright road we've traveled between April and May of 2025, my heart swells with pride and happiness. In every lesson circle, on every stage, during science fairs, and throughout our community projects, I have seen our young people grow—anchored in our cherished past, yet boldly dreaming forward. They are not rehearsing for tests; they are rehearsing for the grand performance of life.

Every project and joyful moment we hold at LFCS proves that learning is not locked in a text—it comes alive through daring to explore, asking brave questions, serving others, and celebrating expression. From our colorful festivals to caring for the planet, from thoughtful exhibitions to rallies for justice, each occasion rings with our promise to raise complete persons who see the entire world and love it deeply.

We stay true to our purpose: to shape young hearts with kindness, courage, and curiosity—so they blossom into both great students and wise friends to the world.

My deepest thanks go to our caring teachers and bright students. Their energy and determination turn every day into a special story of learning, respect, and change that will stay with us forever.

**MRS. ARUNA DANG**

Chairperson, Lady Florence Convent School

## FROM THE PRINCIPAL'S DESK

---

Education is not just the acquisition of knowledge, but the nurturing of values that elevate humanity. It is a force that shapes a child's personality into a healthy mind and a happy soul—equipped with 21st-century skills, academic excellence, and emotional strength to face life's challenges with balance and harmony.

At LFCS, we strive to blend academic achievement with a strong value system deeply rooted in our school culture. We believe that a meaningful transformation must begin with a collective shift in mindset, allowing education to extend beyond the classroom and influence the world at large. Our unwavering commitment to such holistic education is reflected in all we do.

I deeply appreciate our parent community for their support and our teachers for their dedication in nurturing each child's potential. I encourage our students to stay humble, disciplined, and ever-curious—eager to expand their knowledge and pursue their dreams with determination.

Each edition of our school magazine is a celebration of growth and creativity. It captures our voices, ideas, and aspirations while showcasing the talents of our young learners. I extend my heartfelt congratulations to the entire editorial team for their dedication in turning this vision into reality.

Mrs Nidhi Bhalla

# KINDERGARTEN WING

## My First Day at School – A Journey of Joy and Discovery

The first day of school marked a beautiful beginning for our youngest learners—our little champions—as they stepped into a world of wonder, friendship, and exploration. With curious eyes and innocent smiles, they entered their classrooms, filled with colors, warmth, and care.

To ease them into this new chapter, we began the day with a gentle hands-on activity designed to engage their senses and spark joy. It served not only as an icebreaker but also as a comforting introduction to the rhythm of school life. The tiny hands at work, the excitement in their voices, and the sparkle in their eyes made it evident that the classroom was already transforming into a second home.

Teachers played the role of gentle guides, offering encouragement and reassurance at every step. From sharing toys to coloring together, the day unfolded with laughter, learning, and a sense of belonging. It was not just a day of fun—it was the foundation of many beautiful experiences yet to come.

The first day will always be remembered as a moment of transition—when timid steps turned into confident strides and the journey of joyful learning truly began.

# KINDERGARTEN WING

## Earth Day Activity - "Save Water, Save Earth"

To instill a sense of environmental responsibility from an early age, a special Earth Day activity was organized for our kindergarten students. The young learners enthusiastically participated, expressing their thoughts through simple yet impactful lines about the importance of protecting our planet.

Guided by their teachers, the children learned valuable lessons about conserving water, planting trees, and keeping the environment clean. Through stories, discussions, and creative expression, they discovered how even small actions can make a big difference.

The message "Save Water, Save Earth" echoed through the classrooms as our little eco-warriors took their first step toward becoming responsible caretakers of the Earth. It was a heartwarming experience to see such young minds connect with the idea of sustainability in such a meaningful way.

# KINDERGARTEN WING

## Mother's Day Activity - "Mom is a Blessing"

To celebrate the unconditional love and warmth of mothers, a special Mother's Day activity was conducted in the Kindergarten Wing. With joy and excitement, our tiny tots created beautiful handmade cards, each one a heartfelt token of their affection.

Guided by their teachers, the children carefully pasted photographs of their mothers and decorated the cards with vibrant colors, stickers, and creative designs. As they worked with their little hands, they also shared sweet thoughts about their moms, filling the classroom with warmth and love.

The activity not only sparked creativity but also helped the children express gratitude and emotional connection in a simple yet touching way. Indeed, it was a gentle reminder that "Mom is a Blessing"—a sentiment that echoed in every smile and sparkle in their eyes.

# KINDERGARTEN WING

## World Health Day Activity - "Say No to Junk Food"

To nurture awareness about healthy living from a young age, the Kindergarten Wing observed World Health Day with an engaging and meaningful activity. The objective was to help our little learners understand the importance of good health and to encourage the adoption of healthy habits in their daily lives.

Through fun-filled discussions, visual aids, and interactive sessions, students learned about nutritious foods, the benefits of physical activity, and the harmful effects of junk food. Teachers guided them in identifying healthy choices and emphasized the importance of cleanliness, regular meals, and staying active.

The message "Say No to Junk Food" was reinforced through storytelling and simple role-play activities, making the concept easy to grasp and enjoyable for the children. The activity not only informed but also empowered our young learners to make better choices for a healthier tomorrow.

# KINDERGARTEN WING

## Baisakhi Celebration – A Festival of Joy, Faith, and Unity

The Kindergarten Wing came alive with colors, rhythm, and joy as our little learners celebrated Baisakhi, the vibrant festival of harvest and new beginnings. The primary objective of the celebration was to promote cultural understanding and foster a spirit of unity and harmony among young minds.

Through music, dance, and storytelling, students learned about the significance of Baisakhi—not just as a harvest festival, but as a celebration of community spirit, faith, and the rich cultural heritage of Punjab. Dressed in traditional attire, the children enthusiastically participated in activities that highlighted the strength of the Khalsa, the blessings of nature, and the joy of togetherness.

The celebration served as a beautiful opportunity for our students to appreciate diversity and deepen their connection to Indian traditions and values. It was a day of learning, sharing, and festive cheer that left lasting impressions on these young hearts.

# KINDERGARTEN WING

## Yellow Day Celebration – A Burst of Sunshine and Joy

The Kindergarten Wing was bright and cheerful as our young learners celebrated Yellow Day—a special occasion dedicated to exploring the vibrant and joyful color yellow. The day was designed to help children recognize, understand, and appreciate the significance of colors in their environment.

Dressed in sunny yellow attire, the children participated in a variety of fun-filled activities that sparked their imagination and enhanced their sensory skills. From coloring and craftwork to storytelling and object identification, the entire day revolved around the theme of yellow—symbolizing warmth, happiness, and energy.

Yellow Day not only helped reinforce color recognition but also fostered positivity, joy, and creative expression among the students. The bright smiles and enthusiasm of our little ones made the day truly radiant and memorable.

# KINDERGARTEN WING

## Fun Day – Celebrating the Onset of Summer Vacation

To mark the joyful beginning of summer vacation, the Kindergarten Wing hosted a vibrant and energetic Fun Day, filled with laughter, play, and unforgettable memories. The event offered our little learners a delightful break from routine, allowing them to unwind, express themselves freely, and embrace the spirit of the season.

Children participated in a variety of engaging activities designed to spark creativity, encourage teamwork, and promote physical movement. From playful games to interactive sessions and music-filled moments, the entire day was a celebration of joy, bonding, and shared experiences.

More than just a day of amusement, Fun Day fostered a strong sense of community and belonging among the students. It also helped nurture essential life skills such as collaboration, communication, and empathy—wrapped in a bundle of fun and excitement.

The smiles and laughter echoing through the campus made it clear: learning is even more meaningful when joy leads the way.

# KINDERGARTEN WING

## Storytelling Activity – Igniting Imagination and Expression

The Kindergarten Wing organized a delightful Storytelling Activity that transported our young learners into the magical world of imagination and wonder. This engaging session played a vital role in enhancing children's cognitive development by nurturing their listening skills, language acquisition, and creative thinking.

Through vivid narration and expressive storytelling, students were encouraged to visualize characters, identify key events, and comprehend story sequences. The activity sparked curiosity and strengthened their ability to interpret and retell stories in their own words.

More than just entertainment, storytelling became a powerful tool for building vocabulary, improving concentration, and fostering a love for language and literature. It was heartening to see our little storytellers so immersed, their eyes lit up with fascinating things and their minds blooming with imagination.

# KINDERGARTEN WING

## Skating Activity – Rolling Towards Fitness and Fun

The Kindergarten Wing introduced an exciting Skating Activity that brought energy, enthusiasm, and movement to the playground. With helmets on and skates strapped tight, our young learners took their first steps—or rather, glides—toward building physical confidence and agility. This fun-filled activity played a crucial role in developing balance, coordination, and overall motor skills. As children skated under careful guidance, they also experienced improved cardiovascular health, strengthened muscles, and enhanced physical endurance.

Beyond fitness, the activity fostered social interaction, cooperation, and a spirit of encouragement among peers. Each glide was not just a movement—it was a leap toward greater confidence, resilience, and joyful exploration.

It was truly a day of rolling fun and learning on wheels!

# PRIMARY WING

## Art-Integrated Activity – Presentation of Number Names

To make learning more interactive and enjoyable, the Primary Wing conducted an Art-Integrated Activity focused on the presentation of number names. This creative approach helped students recognize and read number names while deepening their understanding of the connection between numerical values and their corresponding word forms.

By combining art with mathematics, students used drawing, coloring, and craft techniques to represent numbers in a visually engaging manner. This not only reinforced their number sense but also made the learning process more meaningful and memorable.

The activity successfully blended creativity with concept clarity, encouraging active participation and building a strong foundation for early numeracy skills.

# PRIMARY WING

## Nature Collage Activity – A Creative Bond with Nature

The Nature Collage Activity held in the Primary Wing was a beautiful blend of creativity, exploration, and hands-on learning. The primary objective was to inspire imagination while developing fine motor skills through cutting, pasting, and arranging natural materials.

Children collected leaves, twigs, flowers, and other elements from nature to create their own unique collages. This activity encouraged artistic freedom, allowing students to express themselves while connecting more deeply with the environment around them.

Through this creative process, students not only enhanced their motor coordination but also developed a greater appreciation for the beauty and diversity of the natural world. It was a joyful, meaningful experience that brought both art and nature into perfect harmony.

# PRIMARY WING

## Clay Molding Activity – Shaping Creativity with Little Hands

The Clay Molding Activity in the Primary Wing offered students a hands-on opportunity to explore their creativity while enhancing essential developmental skills. The primary objective was to nurture fine motor skills and hand-eye coordination, all while encouraging imagination and self-expression.

Working with soft, colorful clay, students sculpted a variety of shapes and figures, engaging their senses of touch, sight, and even smell. This rich sensory experience not only stimulated their creativity but also offered a calming and focused outlet for expression.

Creating something from scratch gave children a strong sense of achievement, helping to boost their confidence and pride in their work. The activity proved to be both fun and educational—an inspiring blend of art, skill-building, and joyful discovery.

# PRIMARY WING

## ZEN DEN Activity – Cool and Happy Moments

The ZEN DEN Activity in the Primary Wing created a calm and joyful space for students to pause, reflect, and share their cool and happy moments. The objective of this activity was to encourage children to express gratitude, appreciate the little joys in life, and strengthen emotional well-being.

Through guided conversations, creative journaling, and interactive sharing circles, students opened up about experiences that made them feel happy, safe, and valued. These moments of mindfulness not only nurtured a positive mindset but also helped in build my empathy and stronger peer connections.

Such reflective practices contributed in increasing happiness, improved emotional regulation, and a greater sense of belonging. The ZEN DEN truly became a haven of warmth, positivity, and meaningful connection for our young learners.

# PRIMARY WING

## Art-Integrated Activity – Where Creativity Meets Language

The Art-Integrated Activity conducted in the Primary Wing was thoughtfully designed to nurture students' creative writing skills, ignite their imagination, and enhance their language proficiency. By blending visual art with storytelling, the activity offered a dynamic and enjoyable way for students to express their thoughts and ideas.

Using drawings, illustrations, and creative prompts, students built their own narratives—developing storylines, characters, and settings with enthusiasm. This integrated approach not only strengthened their storytelling abilities but also encouraged deeper engagement with language in a fun and meaningful context.

The activity proved to be a powerful tool in building confidence in expression while fostering both artistic and linguistic growth.

# PRIMARY WING

## Experiential Learning – Planting a Seed

As part of our commitment to hands-on learning and environmental awareness, the Primary Wing conducted an Experiential Learning Activity on Planting a Seed. The primary objective was to promote values of environmental conservation, sustainability, and a deeper connection with nature.

Through this activity, students experienced the joy of nurturing life firsthand—planting seeds, understanding the process of growth, and learning the importance of greenery in supporting biodiversity. It helped instill a sense of responsibility and care for the environment, fostering eco-conscious habits from an early age.

This simple yet powerful act served as a meaningful lesson in sustainability and inspired young minds to become guardians of the Earth.

LIGHT THY SOUL

# PRIMARY WING

## Earth Day Activity – Nurturing Young Eco-Warriors

To instill a sense of responsibility towards our planet, the Primary Wing observed Earth Day with an engaging and purposeful activity. The aim was to raise environmental awareness among students and to encourage eco-friendly habits and behaviors.

Through creative posters, discussions, and hands-on tasks, students learned about the importance of protecting natural resources, reducing waste, and making sustainable choices. The activity sparked thoughtful conversations and inspired children to take small but meaningful actions in their daily lives to care for the Earth.

By participating wholeheartedly, our young learners took their first steps toward becoming conscious and compassionate stewards of the environment.

# PRIMARY WING

## Comic Strip Activity – The Adventures of a Frog

As part of a creative learning experience, students in the Primary Wing designed their own comic strips featuring a frog, complete with speech bubbles and imaginative storylines. This activity was aimed at encouraging creativity, imagination, and self-expression, while also strengthening fine motor skills through cutting, pasting, and assembling the comic panels.

Students brought their frog characters to life—giving them voices, expressions, and adventures that sparked laughter and storytelling. From humorous one-liners to thoughtful messages, the speech bubbles allowed children to blend art with literacy in a fun and engaging way. This hands-on activity not only promoted artistic freedom but also deepened their appreciation for nature and storytelling, making learning both meaningful and enjoyable.

# PRIMARY WING

## Place Value Caterpillar – Learning Numbers the Fun Way!

To make mathematics both engaging and meaningful, the Primary Wing conducted a hands-on activity where students created a Place Value Caterpillar using colorful paper circles. This creative exercise helped children understand and visualize the concept of place value in a fun and interactive manner.

By arranging the circles to represent ones, tens, hundreds, and more, students gained a clear understanding of the relationship between digits in a number and how their position determines their value. The use of vibrant colors and visual aids made abstract concepts easier to grasp and more enjoyable to learn.

This activity not only enhanced their mathematical thinking but also fostered creativity and improved fine motor skills through cutting, pasting, and organizing their caterpillars with care and pride.

# PRIMARY WING

## Club Activity – Nature's Beauty Poem Writing

As part of our ongoing effort to blend creativity with learning, the Primary Wing organized a poem writing activity under the theme Nature's Beauty. The main objective was to foster appreciation and love for the natural world, while also nurturing creative expression and literary skills. Students explored the sights, sounds, and wonders of nature through observation and discussion. They then crafted poems that beautifully reflected their individual interpretations and feelings—infusing their verses with imagination, empathy, and a touch of personal flair. This activity allowed students to express what they had discovered and understood about nature in a poetic form, deepening both their connection to the environment and their command of language. It was a joyful blend of reflection, creativity, and literary growth.

# PRIMARY WING

## Club Activity - "Tree Talk: My Favorite Tree"

As part of our nature-focused club initiative, the Primary Wing conducted an enriching activity titled "Tree Talk – My Favorite Tree." Students were encouraged to speak a few lines about their favorite tree, accompanied by a relevant prop or visual aid to enhance their presentation.

This unique activity aimed to foster a deeper connection with nature by encouraging children to observe, appreciate, and reflect on the role of trees in our lives. By giving a voice to trees through imaginative expression, students were inspired to see the natural world from a new perspective—inviting them to listen, learn, and respect the silent wisdom of nature.

"Tree Talk" not only enhanced public speaking and confidence but also instilled environmental awareness and a sense of gratitude toward the green guardians of our planet.

# PRIMARY WING

## WELCOME BACK TO SCHOOL ACTIVITY

This activity was done in all grades to build a sense of community and set a positive tone for the new session. A special assembly was organized to share new ideas and expectations for the new session. Students were engaged in activities like hand expressions activity, all about me -caterpillar, made bookmark with future goals written on it.

# PRIMARY WING

## The Pinnacle of Achievements – Honouring Excellence

To celebrate the spirit of excellence and perseverance, our school hosted “The Pinnacle of Achievements”—a prestigious event held on campus to honour the outstanding accomplishments of students in the academic session 2024–25.

The ceremony was a heartfelt tribute to the hard work, dedication, and determination of our position holders, as well as the unwavering support and guidance of their teachers. The atmosphere was filled with pride and joy as our respected Principal Ma'am felicitated the achievers with trophies and certificates on stage.

The event served as an inspiration to all, reaffirming the belief that consistent effort and a strong support system lead to great success. It was a moment of pride for the entire school community, celebrating not just achievements, but the journey of growth and learning behind them.

# MIDDLE WING

## World Health Day - Inspiring a Culture of Wellbeing

World Health Day was observed in the Middle Wing with the aim of raising awareness about the importance of physical health, mental wellbeing, and the global need to address pressing health challenges. The event served as a reminder that health is not merely the absence of illness, but a holistic state of physical, mental, and emotional balance.

Students actively participated by speaking about ways to maintain a healthy lifestyle, emphasizing simple yet powerful habits such as eating a balanced diet, engaging in regular exercise, maintaining proper sleeping routines, and staying mentally positive.

The observance not only deepened students' understanding of personal health but also encouraged them to make mindful choices that contribute to lifelong wellbeing. It was a valuable initiative to instill healthy habits early and promote a wellness-conscious mindset among the youth.

# MIDDLE WING

## Salad Making Presentation – A Blend of Health and Creativity

The Salad Making Presentation in the Middle Wing was a vibrant and engaging activity designed to promote healthy eating habits, creativity, and teamwork among students. Through this hands-on experience, students not only explored the importance of nutrition but also enhanced their culinary and presentation skills.

Working in teams, students prepared colorful and nutritious salads using a variety of fresh ingredients. They creatively arranged their dishes, demonstrating both aesthetic sense and an understanding of nutritional balance. The activity also introduced basic planting techniques and encouraged discussions about the benefits of incorporating fruits and vegetables into daily meals.

This interactive session not only fostered collaboration and communication, but also instilled in students a sense of responsibility toward making healthier food choices. It was a perfect blend of fun, learning, and wellness awareness.

# MIDDLE WING

## Zen-Den Activity – The Ripple Effect of Gratitude

To cultivate a mindset of positivity, empathy, and appreciation, the Middle Wing conducted a special Zen-Den activity titled “The Ripple Effect of Gratitude.” The objective was to help students recognize the power of gratitude in shaping their thoughts, emotions, and relationships.

Through reflective exercises, sharing circles, and creative expression, students explored the importance of acknowledging and expressing thankfulness in their daily lives. The activity encouraged them to appreciate not only what they have but also the people around them—fostering stronger bonds and emotional connection.

Students thoroughly enjoyed participating and expressed their feelings with sincerity and joy. This simple yet powerful practice contributed significantly to their mental and emotional well-being, nurturing a calm, respectful, and optimistic classroom environment.

The ripple of gratitude, once set in motion, truly left a lasting impression on every young heart.

# MIDDLE WING

## MUN Club Activity – The Silent Negotiation: Saving Endangered Animals

This activity offered students an immersive experience in international diplomacy with a focus on the urgent issue of endangered species conservation. Students represented different countries in a unique simulation where they negotiated silently, emphasizing non-verbal cues, written proposals, and quiet collaboration. The activity allowed them to reflect on global ecological concerns while sharpening their diplomatic, critical thinking, and empathy-driven negotiation skills. It also fostered a deep appreciation for biodiversity and the responsibilities that come with being a global citizen.

# MIDDLE WING

## Health & Wellness Club - The Emotion Garden

To support the emotional well-being of students, the Emotion Garden activity invited children to explore and express their feelings through creative art. Using colored paper and craft materials, students designed 'emotion flowers,' each petal symbolizing a different emotion. This therapeutic activity helped students to recognize, understand, and express emotions in healthy ways, creating a classroom environment rooted in empathy, self-awareness, and positive mental health practices.

# MIDDLE WING

## Earth Day Celebration

In celebration of Earth Day, students engaged in a series of enriching, eco-focused activities. These included slogan writing, collage making, a resource audit of the school campus, and best-out-of-waste projects. The initiative promoted environmental stewardship, creative expression, and sustainable thinking, encouraging students to reflect on their role in protecting the planet and conserving natural resources.

# MIDDLE WING

## Art-Integrated Activity – Most Popular Internet Services

As part of a subject enrichment program, students researched various internet services including search engines, communication platforms, e-commerce sites, and social media tools. Through creative presentations and illustrations, they analyzed the impact of digital services on modern life, identifying both their benefits and potential risks. The activity helped students become more digitally literate and thoughtful users of technology.

# MIDDLE WING

## Art-Integrated Activity – Vrikshanaam Mahttvam

Rooted in environmental education, this activity focused on the vital role trees play in sustaining life. Students created thematic posters and gave oral presentations advocating for tree conservation. It deepened their understanding of climate resilience, air quality, and biodiversity, while also nurturing their public speaking and creative abilities.

# MIDDLE WING

## General Awareness Program – Menstrual Health Management

To promote health literacy and body positivity, a webinar was conducted by Dr. Vinita Sharma for girls of Grades V to VIII. The session addressed the biological and emotional aspects of menstruation, focusing on hygiene, stigma reduction, and self-care. It empowered students with scientific knowledge, confidence, and a sense of dignity, encouraging them to view menstruation as a natural and manageable part of life.

# SENIOR WING

## World Health Day Observance

Across Grades IX to XII, World Health Day was commemorated through a variety of interactive and educational activities. Students participated in poster-making, a health awareness rally, and classroom discussions centered around personal and community wellness. These sessions emphasized the importance of a balanced diet, regular exercise, mental health awareness, and hygienic habits. The event effectively fostered a sense of responsibility toward individual and collective health.

# SENIOR WING

## Pinnacle of Achievement Ceremony

To recognize academic excellence, the school hosted the Pinnacle of Achievement, honoring scholars and position holders of the 2024–25 session. The ceremony began with the traditional lighting of the lamp, followed by an inspiring address by the Principal. Certificates and trophies were awarded to meritorious students, and the event featured vibrant cultural performances. It served as a celebration of hard work and dedication, motivating all students to strive for excellence.

# SENIOR WING

## Allen Career Counselling Session

In collaboration with expert counselors from Allen, a career guidance session was organized to help students navigate their academic and career choices. The session provided insights on stream selection, career planning, and aligning individual strengths and interests with future goals. It aimed to empower students with clarity, confidence, and strategic thinking as they prepare for higher education and career pathways.

# SENIOR WING

## Basics of Debate & International Affairs – MUN Orientation

Students were introduced to the foundational skills of formal debating, diplomacy, and structured communication through a Model United Nations simulation. They explored how international bodies function and engaged in discussions on real-world issues. The activity boosted their public speaking, critical thinking, and confidence, preparing them for future participation in MUN conferences.

# SENIOR WING

## Sports Club – Warm-Up Techniques & Physical Fitness Routines

Students participated in guided physical training sessions focused on warm-ups, stretching, and basic fitness exercises. Conducted under expert supervision, these sessions highlighted the importance of daily exercise, stamina building, and injury prevention, reinforcing the connection between physical health and academic performance.

# SENIOR WING

## Dramatic Club – Voice Modulation & Expression Training

This club activity aimed to enhance students' ability to express emotions and narratives effectively. Through tone exercises, articulation drills, and dramatic readings, students developed stage presence, vocal clarity, and expressive confidence. It also helped break inhibitions, making learners more open and articulate.

## Community Club – Campus Cleanliness Drive

To instill civic responsibility, students took part in a hands-on cleanliness drive within the school campus. Armed with cleaning tools and team spirit, they worked together to maintain hygiene in various areas of the school. The activity promoted teamwork, responsibility, and environmental respect, nurturing the values of social contribution.

# SENIOR WING

## Mastermind Club – Brain Teasers & Puzzles

Engaging the logical side of young minds, students were challenged with logic puzzles, riddles, and group brain games. This interactive session promoted lateral thinking, reasoning ability, and mental agility, making learning both fun and intellectually stimulating.

## SDG Club – Group Poster Making on Sustainable Development Goals

Students learned about the United Nations' SDGs and collaborated to create posters on key themes such as climate action, gender equality, and clean energy. The activity connected classroom learning to global issues, inspiring students to become socially responsible global citizens.

# SENIOR WING

## MUN Club – Country Research & Position Paper Writing

Lady Florence Convent School conducted an engaging orientation session for the MUN Club on Country Research and Position Paper Writing to equip students with the skills required for meaningful participation in upcoming MUN conferences. The session focused on guiding students through the essentials of diplomatic research, understanding geopolitical contexts,

analyzing foreign policy, and aligning their arguments with their assigned country's stance. Students were introduced to reliable sources for research and the correct format for writing impactful position papers, including structuring arguments, presenting solutions, and maintaining formal tone. A live demonstration of a model position paper and an interactive Q&A helped clarify common doubts. The orientation concluded with the formation of peer review groups and clear submission timelines, leaving students confident, prepared, and motivated to represent their countries with clarity and conviction.

## Community Club – Poster Making on Social Issues

Students artistically expressed their views on pressing social issues like gender discrimination, child rights, and pollution through poster-making. The activity encouraged social awareness, artistic expression, and empathy, while fostering a sense of community engagement.

# SENIOR WING

## Cooking Without Fire – Sandwiches & Healthy Rolls

A delightful culinary session saw students preparing nutritious sandwiches and vegetable rolls without fire. The activity emphasized balanced nutrition, safe food practices, and teamwork while allowing creativity in food presentation. It was a fun, educational experience promoting healthy eating habits.

## Zen Den – Cooling Clay Mindfulness

Students participated in a soothing mindfulness activity where they shaped calming figures out of chilled clay. This sensory-based experience encouraged emotional release, relaxation, and self-reflection. Students shared their thoughts in pairs and contributed to a class gratitude board.

# SENIOR WING

## Creative Corner - Comic Strip Creation

In this interactive session, students explored the art of storytelling through comic strips. They created humorous and meaningful narratives using illustrations and speech bubbles. This activity fostered imagination, sequential thinking, and visual literacy, making storytelling a fun learning journey.

# SENIOR WING

## A Promising Start: Experiential Learning and Leadership Bloom at LFCS

The months of April and May ushered in a vibrant and purposeful start to the academic session at Lady Florence Convent School. These foundational months were rich in learning experiences, igniting curiosity, leadership, and creativity among students across all grades.

A key highlight was the launch of the Model United Nations (MUN) Club. Students were introduced to the world of diplomacy, global affairs, and structured debate. The orientation sessions enabled them to conduct country research and draft position papers, fostering critical thinking, collaboration, and confidence in public speaking.

The school also observed Earth Day with great zeal. Activities like sapling plantation, eco-poster creation, and group discussions on sustainability nurtured environmental awareness and responsibility. Simultaneously, Book Week captured the literary imagination of students through reading challenges, author sessions, storytelling corners, and bookmark-making.

In the primary and middle wings, experiential learning was at the core of academic engagement. Hands-on science experiments, nature walks, art-integrated math lessons, and role plays helped children internalize concepts in a joyful and memorable way. Puppet shows, rhymes with actions, and group storytelling in kindergarten made learning delightful and dynamic.

Senior students explored subject enrichment through activity-based assessments and career awareness workshops. These sessions provided clarity in academic planning and future pathways, encouraging goal-setting and time management.

Together, these two months laid a strong foundation for the year ahead—fostering not just academic growth but leadership, teamwork, empathy, and a genuine love for learning. The LFCS community stands energized and ready to soar higher with purpose and pride.

-Editorial team

## As We Turn the Page...

The months of April and May unfolded like a vibrant tapestry of growth, creativity, and achievement at Lady Florence Convent School. From the joyful echoes of laughter in kindergarten classrooms to the insightful projects and dynamic assemblies in the senior wing, every corridor resonated with the spirit of learning and purpose. Our students embraced each opportunity with enthusiasm, and our dedicated educators steered every moment with vision and care.

As we draw the curtain on this engaging chapter, we extend heartfelt appreciation to our parents, mentors, and staff who made every initiative meaningful. Yet, this is only the beginning.

July and August await us with fresh dreams, renewed energy, and new milestones to conquer. We promise more stories of inspiration, innovation, and imagination in the coming edition.

Until then, keep the flame of curiosity alive and stay connected!

**Stay tuned — The journey of learning continues...**
